

# TRANS AWARENESS FOR NON-PROFIT ORGANISATIONS

Are you implementing a trans policy or looking to improve the inclusivity of your organisation for trans staff, volunteers and/or service users?

Do your staff or volunteers need a safe, non-judgmental space to learn and ask questions about trans issues and related terminology?

Are you looking for a trainer who won't just give you the basics, but will help you to think about how trans awareness is relevant to what you do, and the practical aspects of running a trans-inclusive organisation?

**KIT HEYAM** is an experienced transgender awareness trainer offering sessions that draw on his own experience as a trans choir member and former choir chair. His sessions cover:

- **The basics:** What is gender? What is the gender binary? What do all those terms mean?
- **Practical guidance, tailored for you:** How are trans issues relevant to your team and your organisation? How do you handle the interpersonal aspects of trans inclusivity? How can you use your publicity to make potential trans staff, volunteers and service users feel welcome? And more...

To find out more or to discuss your requirements, contact Kit by email or phone using the details below.

## TESTIMONIALS

"Kit had set the training up in a way which invited curiosity and normalised the notion of ignorance / no such thing as a stupid question."

"Really excellent and engaging and participatory workshop."

"I would definitely recommend Kit to other organisations."
